

PAKtite® Cargo Panels Warranty

Protection

PAKtite® Cargo Panels are high-quality, performance engineered oriented strand board panels with greatly enhanced physical properties. PAKtite Cargo Panels will perform as interior structural walls and floors when properly specified and installed by an approved Cargo Trailer Manufacturer in accordance with accepted industry practices. PAKtite Cargo Panels have a two-year limited warranty against structural panel failure caused by manufacturing defects, glue bond failure, or delamination.

Provisions

Affiliated Resources, Inc. will, at its sole discretion, authorize the replacement or repair of defective PAKtite Cargo Panels within 30 days after receipt of claim. All claim documentation must include the name of the Cargo Trailer Manufacturer, original purchase invoice, serial number, photographs, and sample of the defective PAKtite Cargo Panels.

Affiliated Resources, Inc. will pay all reasonable labor and material costs directly associated with the replacement or repair of defective PAKtite Cargo Panels for a period of one year from the original date of purchase. Transportation, travel, and lodging expenses are not included. After one year from the original date of purchase, Affiliated Resources, Inc. will pay only the material cost of defective PAKtite Cargo Panels. The PAKtite Cargo Panels Limited Warranty does not cover claims made more than two years from the original date of purchase.

Affiliated Resources, Inc. reserves the right to inspect all PAKtite Cargo Panels and component parts concerned with a claim. The PAKtite Cargo Panels Limited Warranty applies to the original purchaser only and is non-transferable.

Limits

The Affiliated Resources, Inc. obligation does not apply to PAKtite Cargo Panels placed in an exterior application, or in an interior space that creates an exterior environment. PAKtite Cargo Panels cannot be used in an application which allows for condensation, repeated wetting, or exposure to standing water. The Affiliated Resources, Inc. obligation does not cover rot, fungal decay, mold, mildew, or damage from wood-destroying organisms.

Manufacturing defects do not include minor edge swelling or surface imperfections like leafing, broken grain, or loose wood strands. Delamination is defined as a visible, physical separation within the PAKtite Cargo Panel that affects the structural integrity of the wall or floor.

Affiliated Resources, Inc. will not be held responsible for any incidental or consequential damages, loss of time or use damages, nor any damages that are the result of accidents, misuse, or the improper installation of PAKtite Cargo Panels.
