

PAKTITE®

CARGO PANELS

Specifically Designed for Enclosed Cargo Trailers

PAK Performance

Construction

- PAKtite® is a performance engineered oriented strand board panel with greatly enhanced physical properties.
- PAKtite is comprised of many dense wood fiber strands formed under intense pressure into a multi-layer panel.
- PAKtite is bonded at high temperatures using 100% MDI exterior grade resins with no added urea formaldehyde.
- PAKtite is tested, evaluated, and certified by the APA-Engineered Wood Association to meet or exceed PS2 performance requirements.

TITE Specifications

Features

- SFI Certified wood fiber from trees grown and harvested in sustainably managed forests.
- Uniform density throughout for superior fastener holding.
- Dimensionally stable with superior racking strength and stiffness.
- Emulsified wax/acrylic gray edge seal minimizes moisture absorption and edge swell.
- Fully sanded face for a light, natural finished appearance.

Manufactured by 

Member Company

Packaging

PAKtite is packaged with cardboard protective side-covers and unitized with three plastic straps banded to 1-1/2" runners.

Thickness	Size	Weight	Pcs/Unit
3/8"	48"x96"	1.20 lbs./sq.ft.	100
1/2"	48"x96"	1.63 lbs./sq.ft.	80
19/32"	48"x96"	1.83 lbs./sq.ft.	65
23/32"	48"x96"	2.34 lbs./sq.ft.	55

Handling

Keep PAKtite free from moisture and contaminants. Store indoors on a flat surface, or covered and above ground away from standing water.

For best performance, acclimatize PAKtite to local equilibrium moisture content before using.

Warranty

PAKtite Cargo Panels will perform as interior structural walls and floors when properly installed by an approved cargo trailer manufacturer in accordance with accepted industry practices.

PAKtite is warranted for two years against structural panel failure caused by manufacturing defects, glue bond failure, or delamination. See the PAKtite Cargo Panels Limited Warranty for full details.

Affiliated Resources, Inc. will not be held liable for any incidental or consequential damages, nor any damages that are the result of the misuse or improper installation of PAKtite Cargo Panels.
